I've heard this played by blink at every concert and on the show jammed

I saw the list of songs and one was called christana applegate

I saw chchristana applegate today...I think she looked at my butt

End With:

e---  
b-4-  
g-4- ( ring)

That's it just repeat the part at the start a couple of times except for four fours at the star that's only once to start the song
