Letra
-===-

Shut the fuck up she said
I'm going fucking deaf
You're always too loud
Everything's too loud

Now that all my friends left
this place is fucking dead
I want to move out
When we can move out
The shit has got to stop
I'll run away

Get the fuck up she said
Your life is meaningless
It's going nowhere
You're going nowhere

You're just a fuck up she said
I'll live alone instead
She said "You don't care"
I know I don't care

I'll never ask permission from you
Fuck off I'm not listening to you
I'm not coming home
I'm never going to come back home
I got too fucked up again
And passed out on the place
Tried to forget you
I can't forget you

No sleep on this flight
I'll think about the nights
We had to get through
How did we get through?

I'll never ask permission from you
Fuck off I'm not listening to you
I'm not coming home
I'm never going to come back home
I think it's time that I should leave

I'll never ask permission from you
Fuck off I'm not listening to you
I'm not coming home
I'll run away

I think it's time for me to leave
