

Blue October - Angels In Everything

tom: G

I've sat at the back of the line for years C
Wishing the world wouldn't spin F
I give in, alone again it appears C
There were pieces of me that lived in corners on a hard wood floor F
Until an Angel walked in through my door Am G
Time stopped, the arch of her back grew wings C
And pulling me further from a devil to a heaven, she said "believe" F
True peace as she looked into my soul C
She said "I'm here to show you faith, and to help you when you fall" Am G
Can you feel my heart Am
Beating underneath these stars? G
You're the Angel that came, and took these clouds away F
You made me believe! C Am
Never be weak, be strong G
Live every moment like an Angel F
Flies C
I'll whisper in your ear F
You are mine, and you will never have to be alone C
And when I pull you near F
You'll know I love you like I never loved anyone C
So let me be the one to lift you up F
I'll carry you home C
'Cause now I'm here to keep you safe Am
And to catch you when you fall G
Can you feel my heart C Am
Beating underneath these stars? G
You're the Angel that came, and took these clouds away F
You made me believe! C Am
Never be weak, be strong G

Live every moment like an Angel F
Flies
Only you can see the true me Am
Through all the right, and wrong C
Take hold, the best has yet to come (yeah) Am C
You've given me the strength to believe in my heart again! F C
And now we're here to share this faith Am
Stand together through it all G
Can you feel my heart C Am
Beating underneath these stars? G
You're the Angel that came, and took these clouds away F
You made me believe! C Am
Never be weak, be strong G
Live every moment like an Angel F
Flies
Can you feel my heart C Am
Beating underneath these stars? G
You're the Angel that came, and took these clouds away F
You made me believe! C Am
Never be weak, be strong G
Live every moment like an Angel F
Flies
Oh, oh, oh, oh C
Oh, oh, oh Am
That's who you are! G
You're the Angel that came, and took these clouds away F
You made me believe! C Am
Never be weak, be strong G
So really strong!
Oh oh oh oh F
(C Am)
That's who you are G
You're the Angel that came F
And took these clouds away
