

# Blueyes - The Otherside

tom:

[Primeira Parte]

So you say it's okay  
That the way you talked me into it  
Was meant to keep me safe  
Now you're left in his arms, yeah  
You done fucked up, yeah  
I'm far away, I ran away, I ran away

[Pré-Refrão]

What is there to say?  
Searchin' for love made me scared to this day, yeah  
I don't see no shame, no  
Feelin' alone is a pain I can take  
What's a hand to hold when I keep fallin' so cold, so cold  
I'm done

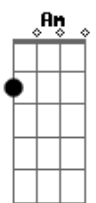

[Refrão]

You don't get it 'cause I'm on  
The otherside, otherside  
So come and see the otherside  
The otherside, otherside  
So come and see the other

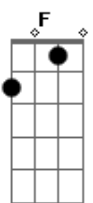

[Segunda Parte]

Pull me closer to your thighs  
The way we livin', it ain't right

Sacrifices are a cycle, I'm about to blow your mind  
Baby, just look at the moon, billion stars for you to choose  
So just go and find somebody knowing what we had was true

[Pré-Refrão]

What is there to say?  
Searchin' for love made me scared to this day, yeah  
I don't see no shame, no  
Feelin' alone is a pain I can take  
What's a hand to hold when I keep fallin' so cold, so cold  
I'm done

[Refrão]

You don't get it 'cause I'm on  
The otherside, otherside  
So come and see the otherside  
The otherside, otherside  
So come and see the otherside

[Ponte]

All these memories that take me back to someone I used to be  
No, I don't wanna go at it again, so I'mma see the otherside

[Refrão]

The otherside, otherside  
So come and see the otherside  
The otherside, otherside  
So come and see the otherside
