Blur - Jets Intro

Tom: D

    This is the guitar part for the song Jets from Think
Tank...as far as I know this riff
played throughout the song.
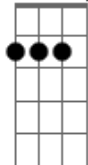

```
e|----------------------------------------------------------
-----|
B|----------------------------------------------------------
-----|
G|7(full bend)-5---5-------7(full bend)-5---5-----9999--
```

```
                           -999-7-5---|
D|---------------7---7--------------------7---7--------9------
---7-|
A|----------------------------------------------------------
-----|
E|----------------------------------------------------------
-----|
```

It sounds better if you crank up the bass setting on your amp,
and only use a little gain.
Any improvments or the guitar to the rest of the song, email
