

Blur - Look Inside America

Tom: C

Good morning, lethargy
 Drink Pepsi, it's good for energy
 The bath's on, smoke in the bedroom
 Sore throat, and on my neck a nasty bruise
 And where it came from well I don't know
 But we played last night, it was a good show
 Got to play a second rate chat show
 A nationwide deal, so we gotta go
 Chuck from the Company says it'll be alright
 Got an ad on KROQ and there's an in-store tonight
 Well I build things up, never let them go
 Got to get time share on the radio
 Look inside America
 She's alright, she's alright
 Sitting out in the distance
 But I'm not trying to make her mine
 Looking for America
 With its kooky nights and its suicides

TV says its alright
 Cos everybody's hung up on something or other
 Stepping off in twenty so the driver says
 I should sleep tonight but I think I'll watch videos instead
 Annie Hall leaves New York in the end
 Press rewind and Woody gets her back again
 And the whole world could have passed through me
 But I don't know that it means much to me
 look inside america
 She's alright, she's alright
 Sitting out in the distance
 But I'm not trying to make her mine
 Looking for America
 With its kooky nights and its suicides
 TV says its alright
 Cos everybody's strung out on something or other
 And the whole world could have passed through me
 But I don't know that it means much to me
 (G F C D) (3x)
 (G F B A)
