Blur - No Distance Left To Run

Tom: E

```
        E
It´s over,
                  Dbm     A
you don´t need to tell me
  E
I hope you´re with someone,
                                 Abm
who makes you feel safe in your sleep
       B
Then tonight,
        A                                  C
I wont kill myself trying to stay in your life
E        A        E           E
I got no distance left to run

Verse 2:
         E
When you see me,
                  Dbm        E
turn your back and walk away
  A
I don´t want to see you because
                           Abm
I know the dreams that you keep
             B
is where we meet
             A                          C
When you´re coming down think of me
E        A        E           E
I got no distance left to run

(Middle)

Verse 3:
E
It´s over,
                    Dbm          E
I knew it would end this way
  A
I hope you're with someone who makes you feel
          Abm       B
that this life, is alive
       A
And it settles down, stays around
C
Spends more time with you
E        A        E
I got no distance left to run
```
