```
        E        Em      Bm
There are too many of us, that's plain to see
    Am7                  Bm              B
We all believe in praying for our immortality
      E                    Em                 Bm
We've posed these questions to our children, and crossed the
mountain stream
      Am7                  Bm              B
And live in tiny house of the same mistakes we've made

          E        Em       Bm
Cause there are too many of us, in tiny houses here and there
Am7                    Bm         B
Passing out somewhere but you won't care

        E          Em       Bm
There are too many of us, that's plain to see
    Am7                  Bm              B
We all believe in praying for our immortality
          E          Em        Bm
For a moment I was dislocated, my terror on the loop,
elsewhere
```

```
Am7                              Bm              B
Flashing lights are vacating on the big screens everywhere
              E        Em        Bm
Cause there are too many of us, in tiny houses here and there
Am7                    Bm         B
Passing out somewhere but you won't care

          Em          G         Bm
There are too many of us in tiny houses, here and there
          C                  Am        Gb        B
All looking through the windows, on everything we share

E Em Bm Bm

          Em                      G         Bm
We pose these questions to our children, leave the mountain
stream
          C          Am          Gb              B
And live in tiny houses of the same mistakes we make
          Em          G          Bm
Cause there are too many of us, it's plain to see
          C          Am        Gb        B
All living in tiny houses about our immortality
