Intro:  D   F   D   F

D                            F
There's so much wrong in your life
D                            F
And you wish you could turn back time
D                            F
No time for sorrow, no time to regret
 D                           F
You're drowning in the sands of time
  G                      D
But life goes on day by day
  F                        C
And all the faults will remain

           G
You walk away
           D
You walk away
          F                              C
From the place you left before without me

There is nothing, that will make you stay
           G
You walk away
           D
You walk away
          F
From the place you left before
                   C
You won't go back, 'cause there's nothing

More for you to say

D          F
Oh, oh, oh, oh

D                            F
You keep all the memories in your heart
D                              F
You know they will keep you from be a tree
D                            F
You walk with the devil deep inside
D                              F
As long as you're not able to forget

  G                      D
