# Bob Dylan - I Believe In You

Tom: E

```
E
They ask me how I feel

And if my love is real
                    A          E
And how I know I'll make it through.
                A     E
And they, they look at me and frown,
                                       D
They'd like to drive me from this town,
                    A
They don't want me around
              E
'Cause I believe in you.

E
They show me to the door,

They say don't come back no more
                               A          E
'Cause I don't be like they'd like me to,
              A      E
And I walk out on my own
                    D
A thousand miles from home
                    A
But I don't feel alone
              E
'Cause I believe in you.

    D           A                           E
I believe in you even through the tears and the laughter,
    D           A               E        E E
I believe in you even though we be apart.
    D           A                    E
I believe in you even on the morning after.
A              B     E    A
Oh, when the dawn is nearing
                B     E    A
Oh, when the night is disappearing
          B           E      A        B
Oh, this feeling is still here in my heart.

E
Don't let me drift too far,
```

```
Keep me where you are
                       A     E
Where I will always be renewed.
                       A     E
And that which you've given me today
                                   D
Is worth more than I could pay
                              A
And no matter what they say
        E
I believe in you.

Instrumental:  (E E E E   E E E E )
               (E E E E   A   E )
               (E E E E   E E E E )
               (D   A   E )

          D               A           E
I believe in you when winter turn to summer,
          D               A           E
I believe in you when white turn to black,
          D               A               E
I believe in you even though I be outnumbered.
A              B     E     A
Oh, though the earth may shake me
                B     E     A
Oh, though my friends forsake me
              B     E    A          B
Oh, even that couldn't make me go back.

E
Don't let me change my heart,

Keep me set apart
                       A     E
From all the plans they do pursue.

And I, I don't mind the pain
                              D
Don't mind the driving rain
                      A
I know I will sustain
              E
'Cause I believe in you.

Instrumental:  (E E E E   E E E E )
               (E E E E   A   E )
               (E E E E   E E ) E E E )
               (D   A   E   E ) (Repeat to fade).
```
