Bob Dylan - Man Gave Names To All The Animals

```
                              tom:
                    Em

               Em
Man gave names to all the animals
          B                 Em
In the beginning, in the beginning
   Em
Man gave names to all the animals
          B                 Em
In the beginning, long time ago

   Em                            B
He saw an animal that liked to growl
                            Em
Big furry paws and he liked to howl
              Em7              A
Great big furry back and furry hair
B                      Em
Uh... think I'll call it a bear

   Em
Man gave names to all the animals
          B                 Em
In the beginning, in the beginning
   Em
Man gave names to all the animals
          B                 Em
In the beginning, long time ago

   Em                       B
He saw an animal up on a hill
                            Em
Chewing up so much grass until she was filled
                  Em7                 A
He saw milk comin' out, but he didn't know how
B                      Em
Uh... think I'll call it a cow

   Em
Man gave names to all the animals
          B                 Em
In the beginning, in the beginning
   Em
Man gave names to all the animals
          B                 Em
In the beginning, long time ago

   Em                          B
He saw an animal that liked to snort
                             Em
Horns on his head and they weren't too short
                    Em7                   A
It looked like there wasn't nothin' that he couldn't pull
```
```
B                          Em
Uh... think I'll call it a bull

   Em
Man gave names to all the animals
          B                 Em
In the beginning, in the beginning
   Em
Man gave names to all the animals
          B                 Em
In the beginning, long time ago

   Em                               B
He saw an animal leavin' a muddy trail
                             Em
Real dirty face and a curly tail
             Em7                    A
He wasn't too small and he wasn't too big
B                      Em
Uh... think I'll call it a pig

   Em
Man gave names to all the animals
          B                 Em
In the beginning, in the beginning
   Em
Man gave names to all the animals
          B                 Em
In the beginning, long time ago

   Em                       B
Next animal that he did meet
                                    Em
Had wool on his back and hooves on his feet
             Em7              A
Eating grass on a mountainside so steep
B                      Em
Uh... think I'll call it a sheep

   Em
Man gave names to all the animals
          B                 Em
In the beginning, in the beginning
   Em
Man gave names to all the animals
          B                 Em
In the beginning, long time ago

   Em                          B
He saw an animal as smooth as glass
                             Em
Slithering his way through the grass
                   Em7        A    B
Saw him disappear by a tree near a lake
```
