       In this life, in this life, in this life
       In this oh sweet life
       We're coming in from the cold
       We're coming in, We're coming in, We're coming in,
       We're coming in, We're coming in, We're coming in
       We're coming in from the cold
It's you, it's you, it's you I'm talking to
      Em
             Am
Well you, hey, you, you
               G
you I'm talking to now
                                        G
        why do you look so sad
                                 and forsaken
       When one door is closed
       Don't you know another is open
Would you let the system
Make you kill your brotherman?
   Dm
No, no, no, no, no, no, no,
                                dred, no.
Would you make system
Make you kill your brotherman?
                                  No Dread No
Would you make system
                               Dm
                                   C
Get on top of your head again? No, dred,
