Bob Marley - Comma Comma
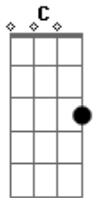

Tom: C

```
G                    C
Comma, comma, come back here,
G                C
My-y young lady;
G                C
Comma, comma, come back here to me,
G                C
My-y young lady, yeah!
G                C
Jus' while I thought
G                C                G
Everything was running smooth,
C
She left me
G            C
While I was in the mood.
```
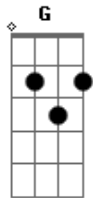

```
G            C
Now I'm callin' to you,
G          C
But my world is relying for you to:
G                C
Comma, comma, come back here,
G                C
My-y young lady, yeah!
G                C
Comma, comma, come back here to me,
G                C
My-y young lady!
G                C
Jus' while I thought
G                C
Everything was running smooth.
G                C
You know I love you;
Oh now I love you.
```
