(Parte - 2)

Remember when I leave,
 That the one in the mirror ain't me,
 It's just someone that I call B.O.B,
 It's kinda me but it's not,

(Aperte e solte os acordes com a mão para deixar um ritmo pausado,
 tocar uma pra baixo com os dedos apertando as cordas no acorde,
 depois tocar uma pra cima com os dedos na forma do acordo,
 mas não apertados, assim dando uma abafada nas cordas)
 (repetir isso 3x em cada acorde até o final dessa parte)

Bm
 It's just a mask that I got,
B
 So that I can rap and get off my block,

(Aqui repete todo o esquema de acordes da parte - 2)

Everyone here gonna die one day,
 So while I'm here ima find my way,
 That's my forte,
 That's why I'm here,
 Shit to open up your ears,
 And speak this real

Beat in down the block with a shoot ya,
 The gold teeth don't really match with the suit,
 Nowadays folk would rather rap than go to school,
 Cause they feel that if they black then they gotta have a tool,
 But yall don't really seen that there,
 After all everybody wanna kick back,
 They wanna sit back,
 They wanna sip Goose,
 They wanna get down,
 They wanna get loose,
 They wanna get blown,
 They wanna see the truth,
 They wanna get old just like you,
 But since they ain't nobody gon be responsible,
 Ima gonna have to be the one to show,

I was a man with no name,
 Now I'm attributing no fame,
 But all of this ain't gonna matter
 When I a die and say good bye so long,
 Sianara I'll have to catch you tomorra baby cause baby,
