

Bon Jovi - Dirty little secret

Tom: C

I light a candle in the garden of love
 To blind the angels looking down from above
 I want, I need the fruit off your vine
 The taste is bittersweet 'cause I know you're not mine
 I wanna come inside

(Chorus)
 Hit the lights and I'll come crawling thru your window tonight
 Come on and send a sign
 I'll be your dirty little secret and you'll be mine
 You got me knock, knock, knockin' at your door
 And I'll be coming back for more
 We made a promise and we'll keep it
 Our dirty little secret

(Verse)
 We'll act like strangers when you're holding his hand
 'cause there's a danger that we both understand
 We run like thieves through the temple of sin
 'Til we fall on our knees
 Then you go back to him
 I wanna feel alive

(Chorus)

Hit the lights and I'll come crawling thru your window tonight
 Come on and send a sign
 I'll be your dirty little secret and you'll be mine
 You got me knock, knock, knockin' at your door
 And I'll be coming back for more
 We made a promise and we'll keep it
 Our dirty little secret

(solo)
 (Chorus)
 Hit the lights and I'll come crawling thru your window tonight
 Come on and send a sign
 I'll be your dirty little secret and you'll be mine
 You got me knock, knock, knockin' at your door
 And I'll be coming back for more
 We made a promise and we'll keep it
 Our dirty little secret
 Our dirty little secret
 Our dirty little secret
 Our dirty little secret
 Dirty little secret
 Our dirty little secret
