

# Bon Jovi - I Love This Town

Tom: D

(Verse)

I always knew that I liked this place  
 You don't have to look too far to find a friendly face  
 I feel alive when I'm walking on the street  
 I feel the heart of the city pounding underneath my feet

(CHORUS)

Yeah, let the world keep spinning round and round  
 This is where it all goes down down down  
 That's why I love this town  
 That's why I keep coming around  
 Say hey (say hey) say yeah (say yeah)  
 You make me feel at home somehow right now  
 That's why I love this town

(Verse)

I got some good friends here  
 I might have broken a heart or two  
 It's getting loud over there  
 Boys must have had a few  
 And there's a cop on the corner  
 He knows everybody's names  
 And a kid with a dream singing for some spare loose change

(CHORUS)

Yeah, let the world keep spinning round and round  
 This is where it all goes down down down  
 That's why I love this town  
 That's why I keep coming around

Say hey (say hey) say yeah (say yeah)  
 You make me feel at home somehow right now  
 That's why I love this town

(Bridge)

They're shouting from the rooftops  
 Dancing on the bars  
 Hangin' out the window  
 Driving in their famous cars  
 You want it, you got it  
 You're ready, I'm on it  
 Come on now  
 Here we go again  
 (Chorus)

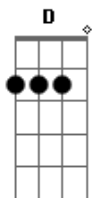

That's why I love this town  
 That's why I love this town  
 No matter where you are from  
 Tonight you're from right here  
 This is where it all goes down, down down  
 That's why I love this town  
 Say hey (say hey) say yeah (say yeah)  
 I love this town  
 Say hey (say hey) say yeah (say yeah)  
 I love this town

Say hey (say hey) say yeah (say yeah)  
 I love this town

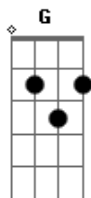

Say hey (say hey) say yeah (say yeah)  
 I love...this town

(G A D D ) (4x)
