

# Bon Jovi - Into The Echo

Tom: **D**  
Intro: **D Gbm G**  
(primeira parte também executada na parte 1 e na ponte)

Parte 1:  
When it hurts just to talk, and it's too dark to see  
When my heart's just a hole full of want, full of need  
Stuck at a stoplight, hands gripping the wheel  
Tears fill your eyes and you bleed just to feel

Someone beside you, someone to cry to

Refrão:  
Into the echo, we shout our dreams  
Into the echo, we throw our hearts  
Into the echo, we send our love  
Into the echo, to the echo, into the echo  
To hear it back

Parte 2:  
Are you who you are  
What's under that mask  
Do you burn for the future or yearn for the past  
Did somebody send you, some broke fairy tale,  
Now you wait by the water for a ship that has sailed

Refrão:  
Into the echo, we shout our dreams  
Into the echo, we throw our hearts  
Into the echo, we send our love  
Into the echo, to the echo, into the echo  
To hear it back

Solo:

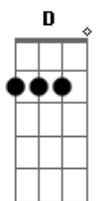

(1/2 tom)

(1/2 tom)  
Ponte:  
[Fica sem tocar até o Em, só toca o Piano (também pode ser uma guitarra ou um violão), fazendo aquele primeiro riff, também presente na Intro]

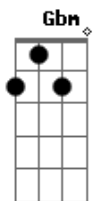

When it hurts just to talk, and it's too dark to see  
You can touch, you can feel  
Yeah, you just got to reach

Refrão final:  
Into the echo, we shout our dreams  
Into the echo, we throw our hearts  
Into the echo, we send our love  
Into the echo, to the echo, into the echo  
To hear it back
