

Bon Jovi - Last cigarette

Tom: **G**

(verse)

G Regrets are all you left on your **Em** lipstick stains
D Take a picture of our past there in that ashtray **C**
Em We had our fun, I used to **G** light your flame
D Like the dancing smoke that rose we tried to find our way **Am** **C**
 No one told me, she told me

(Chorus)

G Your love's like one last cigarette
D Last cigarette, I will savor it
 The last cigarette **Em**
 Take it in and hold your breath, hope it never ends **C**
 But when it's gone, it's gone **G** **D**
 The last cigarette

(Verse)

Em Just to breathe reminds me of what used to be **G**
D The smoke's the ghost that keeps you close when I can't sleep **Am** **C**
Em Don't ask the past to last; it's **G** about to change
D The memories don't answer when I call your name **Am** **C**
 No one told me, she told me

(Chorus)

G Your love's like one last cigarette
D Last cigarette, I will savor it
 The last cigarette **Em**
 Take it in and hold your breath, hope it never ends **C**
 But when it's gone, it's gone **G**

One last cigarette, last cigarette **D**
 One I can't forget, the last cigarette **Em**
 Right there at my fingertips, I got your taste still on my lips **C**
 Right or wrong **C**
 You're still gone, gone, gone
