

# Bon Jovi - Now And Forever

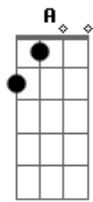

Tom: **A**

**A**  
It's been a long time **D**  
Baby, how you've been ? **A D**  
But it sure feels good **Dbm Gbm**  
To see you again, my friend **E D**  
**A D**  
I still remember  
Just like yesterdays **A D**  
Though the miles and the smiles roll on, **Dbm Gbm**  
They won't fade away **E D**  
**Dbm Gbm**  
And it hurts just like hell to let go  
But I know ... **D Bm E**

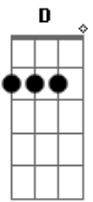

**A D**  
Kings will be kings with crowns to defend  
But I'm just one man and I can't pretend **A D**

A heart's just a heart, and songs have to end  
Dreams will be dreams, friends will be friends **A E**  
Now and forever, **D E A** now and forever  
**A D**  
I still remember when you didn't know my name **A D**  
We were lost on the road but you made it my home just the same **Dbm Gbm E**  
**A D**  
God I wanna say that you gotta hold on when we go our separate ways  
But when your radio's on, you're hearing this song **Dbm Gbm**  
I hope that you say nothing's changed **D Bm E**  
**A D**  
Kings will be kings with crowns to defend  
But I'm just one man and I can't pretend **A D**  
A heart's just a heart, and songs have to end **A D**  
Dreams will be dreams, friends will be friends **A E**  
Now and forever, **D E A** now and forever
