

Bon Jovi - Save the World

```
Intro: 2x: F Dm Am C
                                                          Like this old tattoo, I ain-t shiny or new, with you by my
                                                          side nothing
                  Em
             D
                                                          matters
I never went to college I don-t have a degree
G D Em
Just say I went night school, I learned all I know on the
                                                          (Refrão)
                                                          Solo: F Dm Bb E7
                         Em
              D
I wasn-t born a rich man; no I ain-t got no pedigree,
                                                                                        Gbm
          C
              С
Sweat on this old collar, that-s my P.H.D.
                                                          Now they can say it-s blind love, but it-s a fool who don-t
                                                          believe
                                                                                    Gbm
                                                          I-d take the wait of the moon, just to walk in down your
It comes down to this I wouldn-t exist,
Without you it ain-t worth the time
              Dm
I-d fight for one kiss, on a night like this
                                                              Е
                                                                     Gbm
                                                                                       D
          Em
                E E
                                                          I can save the world, since the night your love saved me
You make me feel I can fly and I-
                                                            A E Gbm
                                                                                    D A
                                                          Baby I can save the world, but as long as you believe,
    Е
          Gbm
                             D
                                            E7
                                                          Our love is even stronger, than God hoped it could be
I can save the world, since the night your love saved me
                                                          Baby all it takes, is just a little faith in me, to feel like
  A E Gbm
                             D
                                   A E7
Baby I can save the world, but as long as you-re near me
                                                              E Gbm Gbm7 Gbm7 B
                                                          I can save the world,
    D Dm
                                                          D E B Gb
I can save, the world
Baby I can save the world.
                                                                              Abm E
I-ve got to confess, sometimes I-m a mess, and sometimes I
                                                          Outro 4x: B Gb Abm E
