

Bon Jovi - These arms are open all night

Tom: C

((VERSE))

Well, it's closing time, I got no place to go
 No, I'm not tired; nobody's waiting at home
 Hey, what about you? Looks like you're leaving alone
 Guess that makes two - me and you

By the way, my name's Jones

I know a place it's not far from here
 That's my dented red Chevy out front
 You can follow me there

((Bridge))

There's no neon lights
 It don't stink of beer
 It's just a mile up the road
 Just a minute from here

((CHORUS))

These arms are open all night
 If you need someone to talk to
 A hand to hold on to
 And if it feels alright
 These arms are open all night

((VERSE))

The band is through, they're breaking down the drums
 The took the singer's keys, man, he was really drunk
 They're turning on the lights, we can't stay here no more

I can take a hint, find my way out the door

((BRIDGE))

So what do you think? Are you going my way?
 There's still a whole lot left to this night
 Baby, what do you say?

((CHORUS))

These arms are open all night
 If you need someone to talk to
 A hand to hold on to
 And if it feels alright
 These arms are open all night

((BRIDGE))

God only knows how long it's been that I been so lonely
 Back there at the stop sign
 I see her headlights
 I think she's coming with me

((SOLO)) - slide

((CHORUS))

These arms are open all night
 If you need someone to talk to
 A hand to hold on to
 And if it feels alright
 These arms are open all night
 are open all night
