

# Bonaparte - Melody X

tom:  
Capostrate na 3ª casa

Now you look for love in times of hate  
How many swipes for a blow of fate?  
You keep the light on, you keep the light on  
You keep the night light on

Every day is like the same old song  
Until everything right goes wrong  
you keep a light on, you keep a light on  
You keep the night light on

Hold your broken dream up high  
Oh you know you try, oh you know you try  
It's the worst case scenario lullaby

And then the rent is just a little too late  
Ain't gonna be no birthday cake  
You keep the light on, you keep the light on  
You keep the night light on

Hold your broken dream up high  
Oh you know you try, oh you know you try  
It's the worst case scenario lullaby

( G B )

Oh you know you try, oh you know you try

It's the worst case scenario lullaby

Even if the cops come and knock on your door  
And the pills spill out on the floor  
You keep the light on, you keep the light on  
You keep the night light on

Hold your broken dream up high  
Oh you know you try, oh you know you try  
It's the worst case scenario lullaby

Something's gonna change  
Something's gotta change  
Hold on, hold on  
Hold on to something good

Something's gonna change  
Something's gotta change  
Hold on, hold on  
Hold on to something good

Try to soothe yourself to sleep my dear  
You know this whole mess is born from fear  
You keep the light on, you keep the light on  
You keep the night light on

( G B )

You keep the light on, you keep the light on  
You keep the night light on

## Acordes
