# BoyWithUke - Just Let Me Go

```
                 tom:
                  C
            F     G              Em      Am
   Baby, I don't want to say
 F      G            C   C7
   I want you to be ok
 F           G               Em
   My ceiling's coming down to play
             Am
With my head
            F
Oh, but
           G                 C
They can't get me in my bed

(Aww)

 F            G             Em
   Where do I go when it gets cold?
 Am               F
Colder than the Moon
              G                 Em
They wanna live before they get old
       Am               F
But I'm not sure I want to

    G        Em        Am
Oh, no, oh, no, oh, no
 F    G         Em        Am
Oh, no, oh, no, oh, no

 F              G             Em      Am
   I just wanna feel like I'm okay
             F
I just wanna go
        G                 Em      Am
I got one foot in the grave

 F            G
   I just wanna go
           Em      Am
I know my place
                        F
Please just let me go
             G              Em      Am
```
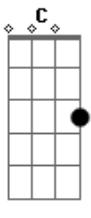

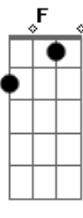

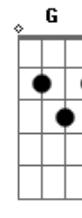

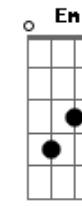

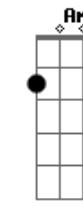

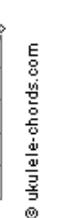

```
Living like a fool, it's not a race

 F                       G
See that I'm psycho, I feel like I might go
            Em                     Am
While birds running circles go numb
         F
I hate when I'm stuck home
        G
I hate when I'm alone
        Em
I can't wait
                 Am
My demons have won

 F               G
   I just wanna go
              Em      Am
I know my place
                    F
Please just let me go
                G              Em      Am
Living like a fool, it's not a race

( F   G   C   Am )
( F   G   C   Am )

( F   G   C   Am )
( F   G   C   Am )

                   F
I'm a safer driver
              G
With a phone in one hand
            Em
Could you help my mom?
                Am
When I'm gone

'Cause I can't
           F              G
I'll see you soon, or not
                    C
I'll set ya free
```
