

BRDGS - Dancing Without Music

tom:

Intro: Bbm Gb Db Db

From the very first moment I met you
I was yours
Every part of me knew it
I'd never felt like that before

To the edge of the world i would go
If you'd only ask me to (ask me to)
And I wish you would
I wish that you would

But you can't love me like I want you to
And I don't want to face the truth

Loving you is like dancing without music
Loving you no I don't know why I do it
Loving you is so hard it leaves me with bruises
Loving you is like dancing without music
Dancing without music

And there nothing that I wouldn't do

To truly be yours
When you touch me I swear it's like heaven
But I'm left at the doors

And there's nothing I can do or say
To change your mind or numb the pain
I know you'll never feel the way that I do
And I'm getting tired of nights like this
Spinning on the precipice
'Cause you can't love me like I wish you would

Loving you is like dancing without music
Loving you no I don't know why I do it
Loving you is so hard it leaves me with bruises
Loving you is like dancing without music
Dancing without

But you can't love me like I want you to
And I don't want to face the truth

Loving you is like dancing without music
Loving you no I don't know why I do it
Loving you is so hard it leaves me with bruises
Loving you is like dancing without music
