Mercy
 Why you gotta show up looking so good just to hurt me
 Why you wanna stop this whole damn world from turning
 Mercy
 Why you hanging on so tight if this ain't working
 Why you wanna stop this flame if it's still burning
 ?Cause it's still burning

So if you're gonna break my heart, just break it
 And if you're gonna take your shot, then take it, take it
 If you made up your mind, then make it, make this fast
 If you ever loved me

Have mercy
 If you go out tonight and get drunk and lonely
 Wind up home alone, please don't call me
 And say you miss me, no

If you're gonna break my heart, just break it
 And if you're gonna take your shot, then take it, take it
 If you made up your mind, then make it, make this fast
 If you ever loved me

Have mercy, woah
 Oh have mercy
 If you're gonna break my heart, just break it
 If you're gonna take your shot, take it, take it

Oh, if you're gonna break my heart, just break it
 And if you're gonna take your shot, then take it, take it
 If you made up your mind, then make it, make this fast
 If you ever loved me, mmmh, if you ever loved me

Have mercy
 Oh, have mercy
 Oh, have mercy
 Have mercy
