

Bright Eyes - Ladder Song

tom:
 Bm Bm
 No one knows where the ladder goes
 Bm Bm
 You're going to lose what you love the most
 Em G
 You're not alone in anything
 Em G
 You're not unique in dying
 Bm Bm
 I feel estranged every now and then
 Bm Bm
 Fall asleep reading science fiction
 Em G
 I want to fly in your silver ship
 Em G A
 Let Jesus hang and Buddha sit

D
 It's on now
 A
 The days are long now
 G
 The ups and the sundowns
 A
 And a twisting mind
 D
 If I've got to go first
 A
 I'll do it on my terms
 G A
 I'm tired of traitors always changing sides
 Bm A G
 They were friends of mine

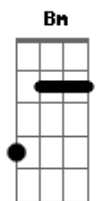

Bm Bm
 Don't hang around as the promise breaks
 Bm Bm
 You'll be there when the next one's made
 Em G
 Kiss the feet of a charlatan
 Em G
 Some imagined freedom
 Bm Bm
 All the rest is predictable
 Bm Bm
 You can say you're the first to know

Em G
 Bought a mantra to concentrate
 Em G A
 Car alarm or hissing snake
 D
 I know now
 A
 How it's going to turn now
 G
 You got to calm down
 A
 Or I'll lose my place
 D
 Got to get to the center
 A
 Got to get to the concert
 G
 Run off with a dancer
 E
 Going to celebrate

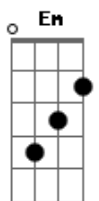

Em A
 We'll welcome the new age
 D G G Em
 Covered in warrior paint
 A D
 Lights from the jungle to the sky
 Em A
 See now, a star's born
 D G G Em
 Looks just like a blood orange
 A D
 Don't it just make you want to cry
 Bm A G
 Precious friend of mine?

Bm Bm
 Well, I know when it's finally done
 Bm Bm
 This whole life's a hallucination
 Em G
 You're not alone in anything
 Em G
 You're not alone in trying
 D
 To be
