

# Bright Eyes - Something Vague

Tom: C

(intro)

F C G Am  
Now and again it seems worse than it is  
F C G  
But mostly the view is accurate.  
F C G Am  
You see your breath in the air as you climb up the stairs  
F C G  
to that coffin you call your apartment.  
Am E  
And you sink in your chair  
C G  
Brush the snow from your hair  
C G F  
And drink the cold away  
Am E  
You are not really sure  
C F  
What you're doing this for  
C G F  
But you need something to fill up the days  
Am E  
A few more hours  
( C G Am F )  
( C G Am )  
F C G Am  
There is a dream in my brain that just won't go away  
F C G  
It's been stuck there since it came a few nights ago  
F C G Am

And I'm standing on a bridge in the town where I lived  
F C G  
As a kid with my mom and my brothers

Am E  
And then the bridge disappears  
C G  
And I'm standing on air  
C G F  
With nothing holding me

Am E  
And I hang like a star  
C G  
Fucking glow in the dark  
C G F  
For all those starving eyes to see  
Am E  
Like the ones we've wished on

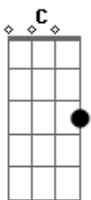

C G  
But now I'm confused  
Am F  
Is this death really you?  
C G Am  
And do these dreams have any meaning?

C G  
No, no, I think it is more like a ghost  
Am F  
That's been following us both  
C G Am  
Something vague that we're not seein  
F C D  
Something more like a feeling

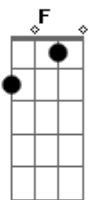

( F C G )
