Bring Me The Horizon - Drown

Tom: E

    Verso:

```
A
What doesn't kill you
Dbm                        B
Makes you wish you were dead
   A
Got a hole in my soul growing deeper and deeper
Dbm              Abm
And I can't take
           A
One more moment of this silence
           Dbm              Abm
The loneliness is haunting me
Abm              A
And the weight of the worlds getting harder to hold up
```

Pré-Refrão:

```
A
It comes in waves
A
I close my eyes
Dbm
Hold my breath
Abm
And let it bury me
A
I'm not ok
A
And it's not all right
Dbm
Won't you drag the lake
Abm
And bring me home again
```

Refrão:

```
A              Dbm
    Who will fix me now?
                A
Dive in when I'm down?
              Dbm
Save me from myself
        Abm        A
Don't let me drown
               Dbm
Who will make me fight?
        A
Drag me out alive?
               Dbm
Save me from myself
```

```
            Abm           A
Don't let me drown
```

Versão:

```
A
What doesn't destroy you
Dbm                       Abm
Leaves you broken instead
   A
Got a hole in my soul growing deeper and deeper
Dbm              Abm
And I can't take
           A
One more moment of this silence
           Dbm              Abm
The loneliness is haunting me
Abm              A                                      Dbm
And the weight of the worlds getting harder to hold up
```
