Tom: G

Am  
At the edge of space the world is curved  
Em  
Like a halo  
Am  
See a blackbird flying now, see it now... through my window Em  
D  
And so the rocket man came down to land  
C  
From the unknown

On the ground he never found the truth...  
Turned his eyes...  
C  
To the skies...  
Em C  
We were eternal back in those days

But now we are memories  
C  
They hide us away  
Em  
But we were the only ones  
C Em  
Never forget, those fallen heroes  
C  
Never again...
