

Bryan Adams - Please forgive me

```
I remember the nights, you know I still do
Intro:
                                                               Ponte:
It still feels like our first night together
                                                                            Gbm
Feels like the first kiss and it's getting better, baby
                                                               So if you're feeling lonely, don't
No one can better this
                                                               You're the only one I ever want
You're still holding on, you're still the one
                                                               I only wanna make it go
The first time our eyes met, same feeling I get
                                                               So if I love you a little more than I should...
Only it feels much stronger, I wanna love you longer
You still turn the fire on
                                                               Please forgive me, I know not what I do
Ponte:
                                                               Please forgive me, I can't stop loving you
             Gbm
So if you're feeling lonely, don't
                                                               Don't deny me this pain I'm going through
You're the only one I ever want
                                                               Please forgive me, if I need you like I do
                                                               I only wanna make it go
                          Gbm
                                                               Please forgive me, I can't stop loving you
So if I love you a little more than I should...
Please forgive me, I know not what I do
                                                               One thing I'm sure of, is the way we made love
Please forgive me, I can't stop loving you
                                                               One thing I'm in pain now, is for us to stay strong
Don't deny me this pain I'm going through
                                                               With every ride and every bus I'm prayin'
Please forgive me, if I need you like I do
                                                               That's why I'm saying...
Please believe me, for what I say is true
                                                               Refrão:

Still feels like our best time together
                                                               Don't deny me this pain I'm going through B B B
Feels like the first touch, we're still getting closer,
                                                               Please forgive me, if I need you like I do
Can't get close enough
                                                               Baby believe me, for what I say is true
You're still holding on, you're still number one
                                                               Please forgive me, I can't stop loving you
I remember the smell of your skin, I remember everything
                                                               No, believe me, I don't know what I do
Gbm
I remember all your moves, I remember you, yeah!
                                                               Please forgive me, I can't stop loving you
