Bullet - Paul's Song

```
Tom: C
Intro: Am  C  D  G
         Am  C  D  G

Am                C
In the morning I
                    D
Hear the angels they
                          G
Lip our faces to make you smile
Oh help me
Am                C
We never touch
                    D
Please remember I
                        G
Still believe I'm something beautiful
Am            C
And you are,all I need
G             D
Pick me up,I'm crying
Am            C
And you are,all I need
G             D
Pick me up,I'm crying

( Am   C  D  G )

Am            C
In the winter
All the angels
D                    G
They sit between us
                        Am
And wish that we could know
```
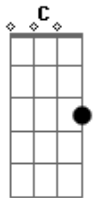

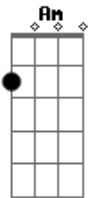

```
C                    D
I would want to
Tell you how much
G                    Am
But the words here
                  C
Are hard for me too
D      G
Sing
Am              C
And you are,all I need
G          D
Pick me up,I'm crying
Am              C
And you are,all I need
G          D
Pick me up I'm crying
Am              C
And you are,all I need
G          D
Pick me up, I'm crying
Am              C
And you are, all I need
G              D
Turn it down, I'm flying
Am              C
And you are, all I need
G      D
Crying
Am              C
And you are, all I need
G      D
Crying

( Am   C  D  G )
```
