[Primeira Parte]

```
    Bm
I stumbled on the road
     G        D
The coldest road
        G         D        A
Where no one has walked before
        Bm
And my own two feet
     G         D
Had started to bleed
        G         D        A
Of the loss that I see in my eyes
```

[Pré-Refrão]

```
    Bm                    G            D
I'm never coming back to the place I once knew
     G        D         A
If I do I'm gon' drown in the blue
          Bm                   G            D
Said I'm never coming back to the lies and the rules
     G         D        A
If I do I'll put all faith in you
```

I walked and I walked cause the fire in my heart
        G            D         A
Was a fire that could never be tamed
          Bm
But the years that we've made
        G         D
They won't ever fade
        G          D        A
They'll stay 'till I'm old and grey
```
