

Cafuné - Tek It

```
I watch the moon
              tom:
              C
                                   D
                                                 G Em
                                                          Let it run my mood
Where did you learn what it means to reciprocate?
                                                          Can't stop thinking of you
C D. Em C D G Em
                   D
And how much can I be expected to tolerate?

Am D
                                                           I watch you (now I let it go)
So I started to think about the plans I made
      Em
The debt unpaid
                                                           Yeah I always know the truth
                         D
                                                                          Em
And you just can't call a spade a spade
                                                           But I can't just say it to you
                                                                        D
                                                           Yeah I know the truth
I watch the moon
                                                           I knew
                                                           Am
Let it run my mood
                                                           Yeah I always know the truth
                  Em
                                                           G. Em
Can't stop thinking of you
C D. Em C D G Em
                                                           But I can't just say it to you
                                                                       D
I watch you (now I let it go)
                                                           Yeah I know the truth
                                                                               D
                                                           I never thought we'd see it through
We started off in such a nice place
G Em.
                                                           G. Em
We were talking the same language
                                                           I never could rely on you
Am. D
                                                           Am. D
                                                           And few times your face came
I o-open and I'm closing
                                                           G. Em
You can't stand the thought
                                                           Into view
Of a real beating heart
                                                           Am. D
                                                           Into view
You'd be holding, having trouble
                                                           I'm not into you
O-o-owning and admit that
I am hoping
                                                           Into you
```
