

Cage The Elephant - Neon Pill

tom:

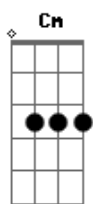

It takes one to know one
Back at it again
Birds of a feather
Until the end
Stitched, patched up and sewed in
I'll probably see you again
What's certainly is likely
Around, no doubt, my friend
It's a hit and run, oh no
Double-crossed by a neon pill
Like a loaded gun, my love
Double-crossed, crossed by a neon pill
(Cm F D7 Gm)
The taste of your lip balm
Blew me away
Cherry pie chapstick
Just like back in the day
I sailed the Atlantic
Bisou fatal le femme
Mon chéri, exactement

Knocked down, not out, let's roll
It's a hit and run, oh no
Double-crossed by a neon pill
Like a loaded gun, my love
I lost control of the wheel
Double-crossed by a neon pill
Out in the open
I'm thinking it through
And it took so long to find you
To find you
It's a hit and run, oh no
Double-crossed by a neon pill
Like a loaded gun, my love
Double-crossed
It's a hit and run, oh no
Double-crossed by a neon pill
Like a loaded gun, my love
I lost (I lost) control (control) of the wheel
Double-crossed by a neon pill
Double-crossed by a neon pill
Double-crossed by a neon pill
