( C Em Am G ) (2x)

Verse 1:  
C  
Timber shakes these trails they all derail Em  
Phony, false and frail Am  
An empty ocean lost our way with no direction home C  
Golden needles names we take in vein Em  
Find it harder to remain Am  
And nothings sacred still waiting on that explanation G

Chorus:  
C  
Right before my eyes G  
I saw the whole world lose control Am  
The whole world lost control F G  
Before my eyes uh-huh C  
I fell through the floor G  
I couldn't take this anymore Am  
I can't take this anymore F G  
It breaks my mind uh-huh

Verse 2:  
C  
Hold your dirty hand over the flames Em  
Getting pleasure from the pain Am  
Softly screaming the pistol that you raise has spoken G  
Golden needles names we take in vein Em  
Find it harder to remain Am G

Well nothings sacred still waiting on that explanation

Chorus:  
C  
Right before my eyes G  
I saw the whole world lose control Am  
The whole world lost control F G  
Before my eyes uh-huh C  
I fell through the floor G  
I couldn't take this anymore Am  
I can't take this anymore F G  
It breaks my mind uh-huh
