

Calum Scott - Rise

tom:

Bb

I've been staring at the coastline **Bb**
Thinking of every choice I've made **Gm**
To lead me here right now **Eb**
Standing on solid ground **F F**
And I've been hiding in the shadows **Bb**
Wondering if I'm on the right road **Gm**
Some place I've never been **Eb**
Is this how it all begins? **F F**

Oh-oh
Cause I've got my best suit on and I'm ready **Bb**
I've got my sleeves rolled up and I'll be on my way **Gm Eb**
While my heart's thumping, boom-boom, boom-boom **F F**

You're gonna see me rise **Bb Gm**
Oh, and rise, rise, rise, rise **Eb F F**

For every valley, there's a mountain **Bb**
For every answer, there's a new question **Gm**
Is it worth all this? **Eb**
I'm pushing myself to the edge **F F**
Cause we're all looking for a reason **Bb**
Find a shelter from the storm within **Gm**
Just keep your eyes ahead **Eb**
F F

And dust yourself off again

Oh-oh
