Intro: E Abm Dbm A

E Abm
I know thoughts you don't want in your head
Are spinnin' 'round-'round-'round
E Abm
I know you got demons from the past
Slowin' you down-down-down
But you don't answer your FaceTime
You never had much of a poker face
E Abm
It doesn't make you less of a man
You're just human right now

E Abm Dbm
When I'm afraid of the world, when every part of me hurts
You don't know how many times you've saved me
E Abm Dbm
So why you hiding from me, it's only making it worse
I just want to be close, my baby

E Abm Dbm A
Give me your pain, I'll take the weight off your shoulders
E Abm Dbm A
Don't be afraid, fall into me, let me hold you
E Abm Dbm A
We weren't made to hold back the rain from the sky
E Abm Dbm A
Who ever told you that boys don't cry, boys don't cry?

If you love me, come and touch me (Yah)
