# Camila Cabello - Into It

Tom: B

 (com acordes na forma de G )
Capostraste na 4ª casa
```
C              G
Ooh, I'm not a psychic
                    D       D
But I see myself all over you (ooh)
C          G
Ooh, I'm sick on you, sick on you
                         D       D
But you're the medicine, too (ooh)

C                                G
The gravity can't hold us, your hands are outer space
D                                D
I can't make sense of nothing and words just get in the way
C                              G
This couch is getting smaller, but it's my favorite place
D                                  D
Don't even ask the question, you know what I'm gonna say

C
I'm into it
          G                                    D
Whatever trouble that you're thinking, I could get into it
         D                                      C
I see a king-sized bed in the corner, we should get into it
             G                        D
All of the things, I wanna do to you is infinite

I mean, if you're into it, I'm into it

C          G
Ooh, I'm holding my, holding my breath
                    D       D
Until I'm turning blue (yeah, yeah)
              G
Ooh, don't save me, don't save me, don't save me
         D                 D
I'll fall into you, fall into you

C                                  G
This couch is getting smaller, but it's my favorite place
D                                  D
Don't even ask the question, you know what I'm gonna say

C
I'm into it
          G                                    D
Whatever trouble that you're thinking, I could get into it
         D                                      C
I see a king-sized bed in the corner, we should get into it
             G                        D
```

```
All of the things, I wanna do to you is infinite
                         D
I mean, if you're into it, I'm into it
C
I'm into it, I'm into it
                  G
Whatever trouble that you're thinking
                D
I could get into it (I'm into it)
               D
I see a king-sized bed in the corner
                       C
We should get into it (I'm into it)
            G                           D
Enough of the conversation, baby, let's get into it (I'm into
it)
                         D
I mean, if you're into it, I'm into it

C                                G
The gravity can't hold us, your hands are outer space
D                            D
I can't make sense of nothing, oh
C                                    G
This couch is getting smaller, but it's my favorite place
D
Don't even ask the question

You know what I'm gonna say (say baby)

C
I'm into it
          G                                    D
Whatever trouble that you're thinking, I could get into it
(thinking, I...)
             D                                  C
I see a king-sized bed in the corner, we should get into it
(into it, yeah)
              G                          D
All of the things I wanna do to you is infinite (everything is
infinite)
                     D
I mean, if you're into it, I'm into it (if you're into it)

I'm into it, I'm into it

C          G
I'm into it, oh na na, I'm into it
D          D
I'm into it, oh na na, I'm into it
C          G
I'm into it, oh na na, I'm into it
D
If you're into it, I'm into it
```
