```
Intro: E B Gb Abm
                                                        E B Abm Gb
  [VERSE 1]
E
Every time I think I'm closer to the heart
                                             B Abm Gb E
Of what it means to know just who I am
                                             B Gb
I think I've finally found a better place to start
                                       B Abm Gb
But no one ever seems to understand
                                             Gb E B
I need to try to get to where you are Gb E Gb
Could it be, you're not that far
You're the voice I hear inside my head
                                                                                         Abm
The reason that I'm singin'
 I need to find you
        Gb
I gotta find you
You're the missin' piece I need
                                                                                             Abm
The song inside of me
                                           F
I need to find you
         Gb

 You're the remedy I'm searchin' hard to find
                         B Abm Gb E
To fix the puzzle that I see inside
Painting all my dreams the color of your smile
