

Canto Verbo - The Song Of Hosea - New Again

tom:

Intro: C D C D Bm

Am C
So she comes around the table

G G G
Once again

Am C
With a broken heart and guilty hands

G G G
Only you could cure and mend the pain

C Am
She saw it glowing, and she went astray

G G G
She heard the whisper and was wooed away
Yes she fell for all of them

C Am
She took a lie and made it true

G G G
To fill the hole that she could never do
As if she would catch the rainbow

And as she comes

C Am
Take her, break her, tell her what she needs and make her new again

C Am
Take her, fill her, give her bread and wine and make her whole again

Am C
So you kept all the promises

G G G
You vowed to her

Am C
And when you saw it in their eyes, oh you're just a fool

G G G
It didn't keep you from loving her

C Am
You gave yourself; you paid the price

G G G
With tears and blood, you saved her life

Oh, the sweetest love you showed

C Am
You made of her your only wife

G G G
Now in you, she is pure and bright
Like the moon

C Am
Now she shines the light that comes from you

G G G
You are her only hope, her way, her truth

You're everything that she has now
And as she comes

C Am G
Take her, break her, tell her what she needs and make her new again

C Am
Take her, clothe her, wash her in your blood and make her new again

C Am
Take her, fill her, give her bread and wine and make her whole again

C Am
You gave yourself; you paid the price

G G G
With tears and blood, you saved our life
Oh, the sweetest love you showed to us

C Am
You made of us your only wife

G G G
Now in you, we are pure and bright
And as we come with broken hearts, we cry out

C Am G
Take us, break us, tell us what we need and make us new again

C Am G
Take us, clothe us, wash us in your blood and make us pure again

C Am G G
Take us, fill us, give us bread and wine and make us sing
