

Car Seat Headrest - Joe Goes To School

Tom: Eb

I saw a horse and it saw me
 You know their skulls are so crazy but they still can see
 It had big brown eyes, shining and sad
 It was just a horse, I couldn't tell if it was sad or not

G Dm C x2

I held out my hand like there was something in it
 Managed to touch it, it did not seem interested
 Then a car pulled up, so I split the scene
 I am a tourist attraction biking down DoG Street
