

Carly Rae Jepsen - Heavy Lifting

Tom: C

You undo me C

I'm a happy mess C

My dress slips to the floor F

And I pose, what an amateur C

To be like this! "exposed" C

You deny the other side of me C

That strips good love away F

And you kissed my mirror reflection F

When I looked at me today G

When you look at me the way you do C

My fingers tingle F

I can't breathe until we're skin on skin C

When you look at me the way you do F

My life moves in perfect motion C

You're doing all the heavy lifting C

Worlds collide

I see a side of you F

I never saw before

We can work it out, let's talk it out C

I want to know you more

Just decided

That I'd like to side with you F

Oh every time

When you ask me how I'm feeling now G

You know I'm feeling fine C

When you look at me the way you do F

My fingers tingle Am

I can't breathe until we're skin on skin G

When you look at me the way you do C

My life moves in perfect motion F

You're doing all the heavy lifting Am

Oh, look at me the way you do C

Look at me the way you do F

Look at me the way you do Am

Oh, look at me the way you do C

Look at me the way you do F

Look at me, look at me the way you do Am

When you look at me the way you do C

My fingers tingle F

I can't breathe until we're skin on skin C

When you look at me the way you do F

My life moves in perfect motion G

You're doing all the heavy lifting C

Oh, look at me the way you do F

Look at me the way you do Am

Look at me, look at me the way you do C

Oh, look at me the way you do F

Look at me the way you do Am

Look at me the way you do C

When you look at me the way you do F
