                                                                  This is a mess,
                                                                  Is this a test?
  Intro: Dm Am E7 Am
                                                                 How many guesses do I get?
Till only one of you is left
                                       E7
I took the perfect avenue, down the road to both of you
                                                                  You're quite the same,
Dm.
                                                                  If love's the game
Did I go duth!
                                                                  I want to see emotions coloring the sky
E7
              Am
                                                                  To the point it will make me wanna cry
This is too much!
                                                                  And get me waking up
With all the money in the world
                                                                  Shaken up
                                                                  Tangled up
You could never buy this girl
                                                                  You could be quaking up, making up
              E7
                                                                  Tangled up
Quite enough, it will be tough
                                                                  You can't be faking it,
                                                                  Making it for my love
                                                                  Before it's tragedy, don't get me tangled up
Ponte: (aqui muda do ritmo pra um dedilhado suave)
                      \mathsf{Am}
                               E7.
If romancing me with neons is something you should do
                                                                  Treating girls like a yo-yo is a no no of monumental kind
                                                                  If playing with your string happens to be your thing
                  Am
Make the letters bright and luminous and blue
                                                                  It's easy to say to both, oh nevermind
