

Carolina Escardoveli - Passa os Dias/ When You Realize (Mashup Autoral)

```
and know I still will understand me
 (com acordes na forma de C )
                                                                              Fm
Capostraste na 2ª casa
Intro: Am C Em G
                                                                Nao quero que seja real
                                                                               Dm
Tudo nessa vida vai passar
                                                                E ando pela casa a gritar
Estou aqui girando por amor
                                                                Falando o teu nome vou chorar
Procurando você pra perguntar
                                                                Recordando os meses atrás
                    Dm
Como esta a ligação entre nos
                                                               Passa os dias vai mudar
                                                                Corre tempo e depois
Passa os dias vai mudar
                                                               Alguém vem me falar
Corre o tempo e depois
                                                                Que nao vive pra nos dois
Alguém vem me falar
                                                               I dream of having you in my arms
Que nao vive pra nos dois
    C
            Em
                                                               and I can make you the greatest good of the world
I remember the day
                                                                so many years with you around
That we met at the park
                                                               I want you for life
like it was yesterday ,
                                                                and know I still will understand me
you were so polite and patient,
I was so young and innocent,
                                                               You pass through my door all the days
hardly we knew each other and you?ve made me smile
                                                                always greets me
with your funny and conqueror way.
                                                                You?re nice to me
Those lights revealing your sparkling face
                                                                but nothing more than that .
let me enchanted , I fell in love.
                                                                I dream of having you in my arms
The time passed and nothing has changed,
                                                                and I can make you the greatest good of the world
My feeling is the same,
                                                                so many years with you around
but don?t you see?
                                                                I want you for life
I dream of having you in my arms
                                                                and know I still will understand me
and I can make you the greatest good of the world
                                                                     G
                                                                understand me
                                                                                     yeahh
so many years with you around
                                                                still will understand me
I want you for life
                                                                understand me yeahh
                                                                still will understand me
