

The Carpenters - Goodbye To Love

```
Tom: C
   Fdim
I'll say good - bye to love;
         E7
No one ever cared if I should live or die.
         E7
                   Fdim Db7
Time and time again the chance for love has passed me by;
                      D Dm A AM7
And all I know of love is how to live without it --
                 Gbm B7
 Db7
I just can't seem to find it.
      AM7 D
                                  AM7 E7
                  E7
So I've made my mind up I must live my life alone;
           AM7 D E7
    Α
                               Α
And though it's not the easy way, I guess I've always known
            Fdim
   (E7)
I'd say good - bye to love.
           E7
There are no for this heart of mine;
             E7 Fdim Db7
Surely time will lose these bitter memories and I'll
                            D
                                  Dm A AM7
Find that there is someone to believe in and to live for,
```

```
Something I could live for.
       AM7
              D
                                         AM7
                    E7
All the years of useless search have fin'ly reached an end
     AM7 D E7
                          A AM7
Loneliness and empty days will be my only friend
                    AM7
From this day, love is forgotten -- I'll go on as best I can.
Instrumental Interlude: First 5 lines of verse
                    G
What lies in the future is a mystery to us all
     AM7 D E7
                                  AM7
No one can predict the wheel of fortune as it falls
                      Dm
                              C
                                     Am
There may come a time when I will see that I've been wrong,
                     G
                              G
                                   Dm
But for now this is my song, and it's goodbye to love
I'll say goodbye to love.
