

## **Catfish And The Bottlemen - Encore**

```
tom:
               Dbm (forma dos acordes no tom de Am )
Capostraste na 4º casa
[Primeira Parte]
I suppose that life goes
The way that it goes and you'll notice it gets better
Each time, that you're mine
So once you're done, come get us
There's always something I can do
[Refrão]
 And trust me, when gotten right
We're tenfold, to that same old, plain routine
From night to night
           G
And trust me, it feels like an uproar in encore
You ask for me to walk that line
[Segunda Parte]
I suppose that life goes
The way it goes
                        Am
And you'll notice you get fed up pretty quick these days
                   G Am
So once you're done come get us
There's always something I can do
```
