

Catfish And The Bottlemen - Seven

```
Tom: Bb
Intro: Bb
I recall a lot of smoking
I wanna disappear for days
You've probably never strugled coping
but I never want to
Promised again that I would call her
Forget the time, cause I'm seven hours behind
It's probably good I didn't call, though
But I always want to
And I beg you
But you know I'm never home
         Gm
And I love you
        F
But I need another year alone
           Gm
I've tried to
Ignore it every time you phone
                    Gm
But I never come close
I don't think through things
I never get time
'Cause I don't think things through
I recall a lot of smoking
I wanna disappear for days
You've probably never strugled sleeping
but I never want to
