Catherine McGrath - Enough For You
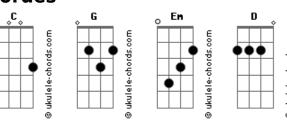

Tom: C

apotraste na 6ª casa G
Wished I was a little bit taller

And my hair was a little bit longer
Em
And I could shine like a shooting star, yeah
C
Just to be enough for you
G
Would've give you all my time

Would've left my dreams behind
Em
Would've done whatever you liked
C
Just to be enough for you

D   Em   C   G
I wasted my tears and I wasted my time
        D   Em   C   G
While I let your shadow shut out my light

C   G   Em
But if I was enough for you
                D   C
You'd still have me wrapped around your finger
          G   Em
If I was enough for you
          D   C
You'd still be drowning out the whispers
                        G   Em
Telling me to get out, telling me to stand up
                        D
Telling me to run as fast as I could
C   G   Em   D
I'd never know my heart was so bulletproof
          C   G   Em   D
If I was enough for you, you, you, you
(If I was enough for you)
          C   G   Em   D
If I was enough for you, you, you, you

(If I was enough for you)

G
Almost took it way too far

I was trying way too hard
Em
Almost showed you all my cards
C
Just to be enough for you
G
I forgot who I was

'Cause I was getting too caught up
Em
Tryna be the girl you want

C
Must've been crazy 'cause

C   G   Em
But if I was enough for you
                D   C
You'd still have me wrapped around your finger
          G   Em
If I was enough for you
          D   C
You'd still be drowning out the whispers
                        G   Em
Telling me to get out, telling me to stand up
                        D
Telling me to run as fast as I could
C   G   Em   D
I'd never know my heart was so bulletproof
          C   G   Em   D
If I was enough for you, you, you, you
(If I was enough for you)
          C   G   Em   D
If I was enough for you, you, you, you

(If I was enough for you)

D   Em   C   G
I wasted my tears and I wasted my time
        D   Em   C   G
You can stay in the shadows watching me shine

C   G   Em
If I was enough for you
                D   C
You'd still have me wrapped around your finger
          G   Em
If I was enough for you
          D   C
You'd still be drowning out the whispers
                        G   Em
Telling me to get out, telling me to stand up
                        D
Telling me to run as fast as I could
C   G   Em   D
I'd never know my heart was so bulletproof
          C   G   Em   D
If I was enough for you, you, you, you

(If I was enough for you)
          C   G   Em   D
If I was enough for you, you, you, you

(If I was enough for you)

If I was enough for you, you, you, you
