

Cavetown - Another One Of Those Days

```
Passed that kid from chemistry who made fun of my name
Intro: Eb G Cm F7
Eb G Cm F7
                                                                                 Cm
                                                                                                   Ab
                                                              He didn't look very happy, I guess we all turn out the same
                                                                G Cm
                                                                                            Ab
Eb G Cm
                                                              I saw a girl in my dreams, she kissed me on the face
Cycling down town
                                                                                                  Cm
                                                               I guess it's just another one of those days when I'm missing
Thought the fresh air would pick me up
                                                               everything
Eb G
Up up and away from the ground
                                                               ( F7 Eb Gm F7 )
                                                               (F7 Eb Gm F7)
But there's no talking dog up here
 Blowing up balloons with my dear
                                                                When she shows up she can sit on my shoulders
                                                                Cause I'm so strong, I wish
Hoped maybe I'd see a familiar face on my way
                                                                Piggy back ride to the hill, then we roll down
                      Cm
                                 Ab
Passed by some cannabis seeds, it all smells exactly the same
G Cm Ab Eb
I saw a girl in my dreams but I don't remember her name
                                                                Feeling like kids for the rest of our lives
                                     Cm
                                                               ( Eb G Cm F7 )
( Eb G Cm F7 )
I guess it's just another one of those days when I'm missing
everything
( Eb G Cm F7 )
( Eb G Cm F7 )
                                                              Hoping in the morning I'll meet her
Eb G
                                                               But for now I'll just be lonely, and my arms will feel so
 Carousel round and round
Like a kid's toy you wind me up
                                                              Dreaming about her body round me, with my fingers in her hair
                                                              {\color{red}G} Cm {\color{red}Ab} Eb It might be so easy, but I am just too scared
And I've got nothing to say
                                                                                   Cm
So you just throw me in the dump truck
                                                               Cause I saw a girl in my dreams, but she doesn't like me
                                                                                Cm
                                                                (I saw a girl in my dreams)
Hoping round the corner I'll see her
                                                   Eb
                                                               ( F7 )
```
