

Céline Dion - A World To Believe In

```
Intro: F
I've seen the tears and the heartache and I felt the pain
I've seen the hatred in so many lives lost in vain
                                Bh
And yet through this darkness there's always a light
                                                        that
shines through
That takes me back home,
                            takes me back home
                           Bb
All of the promises broken and all of the songs left unsung
           Bb
Seems so far away as I make my way back to you
You gave me faith and you gave me a world to believe in
You gave me a love to believe in and feeling this love I can
rise up above
And be strong and be whole once again
I know that dreams we hold on to can just fade away
And I know that words can be wasted with so much to say
And when I feel helpless there's always a hope that shines
through
And makes me believe,
                        makes me believe
```

```
And I see for one fleeting moment
                                     paradise under the sun
Bh
